

Gopi Ram Panthiyil

Gopi joined the 7C Shipping team in 2016 and has over 40 years experience in shipping. This includes 20 years sailing on board merchant navy vessels as a marine engineer, including 8 year as chief engineer, as well as over 20 years marine experience in on-shore positions. Gopi has sailed on or managed many different types of vessels, including bulk carriers, crude tankers, product tankers, chemical tankers, and gas carriers. Over the last years Gopi has focussed on looking after financial investors interests by managing the relationship between the funds and third party ship managers.

Prior to joining 7C Shipping Gopi held high level management positions at Accord Ship Management, Eurasia, Bernard Schulte Shipmanagement, and W-O Group.

Gopi holds a graduate degree in electrical engineering form the University of Kerala, India.
